Were so used to shojo manga being light and fluffy that serious matters being discussed often hit us like a brick. I wasn't even properly paying attention while I was proofreading, until I came across the big bold letters spelling "ALS" — I had to double check with Aki what it meant in this context, because I didn't think manga could actually deal with such a grueling disorder. 

I've been doing some extra reading on ALS to prepare for future chapters. You can find excellent information on the website of the ALS Therapy Development Institute.

Notes

"Dan" is the equivalent of proficiency levels for kendo like different colour belts are for judo. The dans range from 1 (lowest) to 8 (highest). More information on kendo can be found on Wikipedia.
